  diagnosis of, 227–228
  epidemiology of, 223–224
  history of, 223
  pathogenesis of, 226–227
  prognosis for, 231–232
  treatment of, 228–231
Aspergillosis, orbital, 76–77
Astigmatism with vascular lesion, 46
Atrioventricular lymphangioma, 44–45
Autoantibody in rheumatoid arthritis, 226–227
Autoimmune uveitis, 206–211
Azathioprine
  in rheumatoid arthritis, 229
  for tubulointerstitial nephritis, 220
  in uveitis, 207

B-scan ultrasonography, 158
Balloon dacryoplasty, 66–67
Best's macular dystrophy, 165–169
  clinical features of, 166–167
  differential diagnosis of, 168–169
  electroretinography in, 168
  genetics of, 168
  histopathology of, 167–168
  management of, 169
Betamethasone for hemangioma, 47–48
Blepharoptosis with fibrosis, 106, 109
Borrelia burgdorferi, 206

Cardiac disease in Marfan's syndrome, 235
Cavernous hemangioma, 44
Cefazidime, 81
Ceftriaxone, 81
Cell, stem, 241–251. *See also* Stem cell
Cellulitis, orbital, 71–84
  anatomy and, 71–72
  classification of, 72–73
  clinical features of, 75–77
  complications of, 80
  diagnosis of, 78–79
  differential diagnosis of, 77–78
  epidemiology of, 73
  etiology of, 74–75
  management of, 80–83
Central nervous system disease strabismus with, 115–124
Central nervous system in von Hippel-Lindau disease, 173, 175–177

Central nervous system stem cell, 250–251
Cerebral complications of orbital cellulitis, 80
Chiari malformation, 120–121
Chlorambucil
  in rheumatoid arthritis, 229–230
  in uveitis, 207
Ciliary marginal zone, cells from, 243–245
Coats' disease, 159–160, 189–197
  clinical features of, 190–193
  differential diagnosis of, 194–196
  etiology of, 193–194
  history of, 189–190
  management of, 196–197
  pathology of, 194
Coloboma, 161–162
Comitant strabismus in comitant vs, 115–117
Commitment, stem cell, 242–243
Computed tomography
  in Coats' disease, 195
  in orbital cellulitis, 79
  in orbital fracture, 90–91, 94, 95
  ultrasonography vs, 155
Congenital disease
  retinopathy of prematurity. *See also* Retinopathy of prematurity
Congenital disorder
  fibrosis, 105–113
  hereditary endothelial dystrophy, 9–17
  nasolacrimal duct obstruction, 57–68. *See also* Nasolacrimal duct obstruction
  pupil-iris-lens membrane, 35–39
  retinopathy of prematurity, 129–146
Corneal stem cell, 249–250
Corneal transplantation, 1–6
  challenges of, 3–4
  complications of, 5–6
  donor tissue for, 4
  indications for, 1
  patient selection for, 1–2
  procedure for, 4–5
  results of, 6
Corticosteroid
  in corneal transplant, 5
  for hemangioma, 47–48
  in rheumatoid arthritis, 230
  for viral infection, 203
Cost of treatment for retinopathy of prematurity, 145–146
Cryotherapy
  in Coats' disease, 196
  for retinopathy of prematurity, 139–140
  in von Hippel-Lindau disease, 184
Crypt, stem cells near, 249
Cyclophosphamide in rheumatoid arthritis, 230
Cyclosporine
  in rheumatoid arthritis, 229
  for tubulointerstitial nephritis, 219
  in uveitis, 207
Cyst
  iris, 162, 163
  in Von Hippel-Lindau disease, 177

Dacryocystorhinostomy, 65–66
Dacryoplasty, balloon, 66–67
Daughter cell, 242
Dermatologic disorder with vascular lesion, 46
Descemet's membrane in endothelial dystrophy, 12
Dexamethasone in retinopathy of prematurity, 138
Diplegia, spastic, with interferon, 48
Discharge, nasolacrimal duct, 59
Donor, corneal transplant, 4
Duct obstruction, nasolacrimal, 57–68
Dystrophy
  Best's macular, 165–169
  congenital hereditary endothelial, 9–17

Ectopia lentis, 39–40
  in Marfan's syndrome, 236, 237
Edema in corneal transplant, 5
Electroretinography in Best's macular dystrophy, 168
Embolization of vascular malformation, 50
Embryology
  of fibrosis, 110
  of nasolacrimal duct, 57–58
Endogenous endophthalmitis, 212–213
Endoscopy, nasal, 67
Endothelial distress syndrome, 12
Endothelial dystrophy, congenital hereditary, 9–17
  differential diagnosis of, 9–11
  future developments for, 16–17
  nonsurgical management of, 15–16

pathophysiology of, 11–12
surgery for, 12–15
Enophthalmos with fibrosis, 106
Enucleation in Coats' disease, 197
Eosinophilia, angiolymphoid hyperplasia with, 45
Epiphora, 58, 59
Epithelial stem cells, 248–249
Epithelium, retinal pigment, in Best's macular dystrophy, 167
Esodeviation in termittent, 123–124
Esotropia, refractive accommodative, 27
Ethmoid sinusitis, 74–75
Excimer laser for refractive surgery, 22–27
Exodeviation in termittent, 123–124
Extraocular muscle fibrosis, 110–111
Exudative maculopathy in von Hippel-Lindau disease, 174
Eyelid vascular lesion, 43–52. *See also* Vascular lesion

Fibrillin, 236
Fibrosis, 105–113
clinical features of, 106–107
differential diagnosis of, 107–108
embryology of, 110
extraocular muscle in, 110–111
genetics of, 111–112
history of, 105–106
treatment of, 108–109
Fish retinal cell, 243–244
Fixation, resorbable system for, 98–101
Flashlamp-pumped dye laser for vascular lesion, 49
Fluorescein angiography in Coats' disease, 192
Foreign body, uveitis and, 213–214
Fracture, orbital, 74, 87–103. *See also* Orbital fracture
Fuchs' heterochromic iridocyclitis, 211
Fungal infection, orbital, 76–77

Genetic counseling in endothelial dystrophy, 16
Genetic disorder
Best's macular dystrophy, 168
endothelial dystrophy, 9–17, 11–12
